   e. Written Determination

XII. Appeals
   a. Elements Under the 2020 Regulations
   b. Grounds for Appeal
   c. Process Flowchart
   d. Other ATIXA Considerations

XIII. Record-Keeping and Documentation
TITLE IX BASICS

- The Law
- When Does Title IX Apply
- The IX Commandments
“No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity receiving federal financial assistance.”
WHEN DOES TITLE IX APPLY?

• Emphasizes the standard in *Davis v Monroe Bd of Ed.*, 526 U.S. 629 (1999)
  – Control over the harasser and the context of the harassment
  – “education program or activity” means...
    ▪ locations, events, or circumstances under substantial control
    ▪ any building owned or controlled by an officially recognized student organization
• Regulations specify “harassment ...against a person in the United States”
  – Off-campus/out-of-school conduct, study abroad programs, or school-sponsored international trips – “nothing in the regulations would prevent...”
• The definition of sexual harassment arguably covers the in-program effects of out-of-program misconduct (though not the misconduct itself)
## THE IX COMMANDMENTS

<table>
<thead>
<tr>
<th>Thorough</th>
<th>Reliable</th>
<th>Impartial</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prompt</td>
<td>Effective</td>
<td>Equitable</td>
</tr>
</tbody>
</table>

- Not act unreasonably to end the discrimination
- Not act unreasonably to prevent recurrence
- Act equitably to remedy effects

### Investigation

### Process

### Remedies
WHAT IS YOUR MISSION AS A DECISION-MAKER?

• Roles and Responsibilities of the Decision-Maker
• Training Mandates
• Challenges for the Decision-Maker
DECISION-MAKER RESPONSIBILITIES

Rank your Top 3 responsibilities as a decision-maker. Identify what you consider least important

- Finding the truth
- Providing a just result
- Providing an educational process
- Making a safe community
- Upholding the school’s policy
- Ensuring a fair process
- Protecting the school from liability
- Punishing wrongdoing
THE GOAL

AN EQUITABLE RESULT FROM AN EQUITABLE PROCESS
WHAT DOES IT MEAN TO BE A “DECISION-MAKER?”

• New Title IX regulations require a “decision-maker” to determine whether a Respondent has violated policy.
  – May be a single person.
  – May be a panel of decision-makers.
  – May be internal or external individuals.

• Required separation of roles.
  – Title IX Coordinator may not serve as “decision-maker.”
  – Investigator(s) may not serve as “decision-maker.”

• Appellate decision-maker is a separate role.
  – May also be a single person or panel; previously uninvolved.
WHEN AND HOW THE “DECISION-MAKER” WORKS

• After the investigation is completed, the case is referred to a decision-maker.

• K-12 schools are not required to conduct a live hearing
  – May offer a hearing if required to do so under State law or other school/District policy (e.g. Goss hearing when suspension/expulsion is implicated)
  – If a hearing is offered, it does not have to comply with §106.45 (e.g. include cross-examination conducted by advisors, etc.)
ROLE OF THE DECISION-MAKERS

• Determine whether District policy has been violated based upon the applicable standard of evidence
  – Facilitate exchange of written questions/responses among parties and witnesses
  – Decisions must be based upon an independent assessment of the evidence gathered during the investigation to include an assessment of the credibility of the parties and witnesses
  – Decisions must be based on the specific policy alleged to have been violated
  – Decisions must be impartial and free of substantive bias

• Determine appropriate sanctions/discipline when a policy violation is found.

• Draft a written determination that outlines the rationale for the finding(s).
Make determination on a party’s request for an appeal.

Review written submissions from parties.

May review investigation report or other evidence gathered during investigation/hearing.

May need to speak with investigator, parties, and/or witnesses.
  – More likely when this will serve as the Goss hearing (when suspension/expulsion recommended)

Review of case should be limited to the grounds noted in the appeal request.
  – Not a de novo review (exception may be when this will serve as the Goss hearing).

Draft a written determination that outlines the rationale for the outcome.
• The definition of sexual harassment in § 106.30

• How to apply definitions used by the recipient with respect to consent (or the absence or negation of consent) consistently, impartially, and in accordance with the other provisions of § 106.45.

• Understanding the scope of the recipient’s education program or activity

• How to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes

• How to serve impartially, by avoiding prejudgment of the facts at issue, conflicts of interest, and bias

• Any technology to be used at a live hearing

• Issues of relevance of questions and evidence

• Issues of relevance to create an investigative report that fairly summarizes relevant evidence.
THE CHALLENGE FOR DECISION-MAKERS

• School/District policies and procedures identify what constitutes sexual harassment within your community.
  – The definitions and procedures used are impacted by Title IX requirements.
• It is not a question of right and wrong, but whether there has been a policy violation, proven by the standard of evidence.
• Your role is to impartially uphold the integrity of the process.
• You may not agree with your policy, but you must be willing to uphold it.
BIAS, CONFLICTS OF INTEREST, AND RECUSAL
Remember, you have no “side” other than the integrity of the process!
Regulations prohibit conflicts-of-interest or bias with Coordinators, investigators, and decision-makers against parties generally or an individual party.

- What creates a conflict?
- How can you assure that you don’t have one?

Types of conflicts/bias:
- Wearing too many hats in the process
- Legal counsel as investigator or decision-maker
- Decision-makers who are not impartial
- Biased training materials; reliance on sex stereotypes

Simply knowing a student or an employee is typically not sufficient to create a conflict of interest if objectivity not compromised.

Also, having disciplined a student or employee previously is often not enough to create a conflict of interest.
• Among the most significant problems for decision-makers
• Bias can represent any variable that improperly influences a finding and/or sanction
• There are many forms of bias and prejudice that can impact decisions and sanctions:
  – Pre-determined outcome
  – Partisan approach by investigators in questioning, findings, or report
  – Partisan approach by decision-makers in questioning, findings, or sanction
  – Intervention by senior-level administrators
  – Not staying in your lane
  – Improper application of school/district procedures
  – Improper application of school/district policies
  – Confirmation bias
  – Implicit bias
  – Animus of any kind
Decision-makers may determine that they need to recuse themselves from hearing a particular case or a party might seek a decision-maker’s recusal.

This is why having an alternate decision-maker on hand is always wise.

Your policy should define the process and circumstances by which a party may seek to recuse a decision-maker.

Typically the Title IX Coordinator determines whether to honor the request.

If you discern that you are not able to hear a case impartially, please let your Title IX Coordinator know immediately.
DUE PROCESS

- Due Process in Procedure
- Due Process in Decision
- Procedural Rights in 2020 Regulations
WHAT IS DUE PROCESS?

- Rights-based protections that accompany disciplinary action by a school with respect to students, employees, or others.
  - Informed by law, history, public policy, culture etc.
- DP in criminal and civil courts vs. DP within a school.
- DP analysis and protections have historically focused on the rights of the Respondent.
- A sexual assault can be a legal deprivation of a Complainant’s substantive due process rights.
- Perceptions of “due process” can be connected to perceptions of legitimacy of a process’s outcome.
“PROCEDURAL DUE PROCESS:” ARE YOU FOLLOWING YOUR PROCESS?

Procedural Due Process:

- Consistent, thorough, and procedurally sound review of all allegations.

- Substantial compliance with written policies and procedures.

- Policies and procedures afford sufficient rights and protections to satisfy mandates of all applicable laws.
  - Clear, written notice of the allegations
  - Opportunity to present witnesses and evidence and be heard by the decision-maker
• Due Process in Decision - A decision must:
  - Be appropriately impartial and fair (both finding and sanction).
  - Be neither arbitrary nor capricious.
  - Be based on a fundamentally fair rule or policy.
  - Be made in good faith (i.e. without malice, ill-will, conflict, or bias).
  - Have a rational relationship to (be substantially based upon, and a reasonable conclusion from) the evidence.
DUE PROCESS PROCEDURAL RIGHTS IN 2020 TITLE IX REGULATIONS

• Right to:
  – Present witnesses, including fact and expert witnesses.
  – Present and know inculpatory and exculpatory evidence.
  – Discuss the allegations under investigation without restriction.
  – Gather and present relevant evidence without restriction.
  – Be accompanied to any related meeting or proceeding by an advisor of their choice, who may be, but is not required to be, an attorney.
  – Written notice of allegations, as well as notice of the date, time, location, participants, and purpose of investigative interviews or other meetings, with sufficient time to prepare.
  – Inspect and review evidence and draft investigation report before finalized.
  – Ask written questions of the other party and witnesses through the decision-maker.
  – Appeal a dismissal and/or outcome.
PRESUMPTION OF NON-RESPONSIBILITY

• Title IX regulations require that published grievance procedures include a statement of a presumption of non-responsibility for the Respondent until a final determination is made.

• Hopefully, this is not a change from current procedures because the determination has always been based on evidence, not presumptions.

• What would it mean to presume neither “guilt” nor “innocence?”
OVERVIEW OF THE "TITLE IX PROCESS"

- The General Phases of a Title IX Process
- Ten Steps of an Investigation
- Evidence and Report Review
THE PROCESS

Incident
- Complaint or Notice to Title IX Coordinator
- Strategy development

Initial Assessment
- Jurisdiction?
- Dismissal?
- Policy violation implicated?
- Reinstatement?
- Informal or formal resolution?

Formal Investigation & Report
- Notice to parties
- Identification of witnesses
- Interview scheduling
- Evidence collection
- Report drafted
- Evidence and inv. report shared
- Inv. report finalized

Determination (Hearing)
- Exchange of written questions and responses
- Determination
- Sanction?

Appeal
- Standing?
- Vacate?
- Remand?
- Substitute?

© 2020, Association of Title IX Administrators.
How does this model differ from the student conduct model?

- An active gathering of information by the investigator(s); not intended to “build a case.”
- Does not impact the implementation of informal or alternative dispute resolution approaches.
- Enhanced due process
- Characterized by an intentional effort to make procedural and support mechanisms equitable.
- Provides an appeal for all parties to the report, not just the Respondent.
10 STEPS OF AN INVESTIGATION

1. Receive Notice/Complaint.
2. Initial Assessment and Jurisdiction Determination
3. Establish basis for investigation (Incident, Pattern, and/or Culture/Climate)
5. Establish investigation strategy
6. Formal comprehensive investigation.
   • Witness interviews
   • Evidence gathering.
7. Draft report
8. Meet with Title IX Coordinator (or legal counsel) to review draft report & evidence.

9. Provide all evidence directly related to the allegations to parties and their advisors for inspection and review with 10 days for response.

10. Complete final report.
   • Synthesize and analyze relevant evidence (may include making recommended findings or conclusions)
   • Send final report to decision-maker and parties/advisors for review and written response at least 10 days prior to decision-maker making their determination of responsibility.
EVIDENCE REVIEW PERIODS

Investigation 106.45(b)(5)

Review any evidence “directly related to the allegations,” including the evidence upon which the recipient does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source.

106.45(b)(5)(vi)

Prior to completion of the investigative report, the recipient must send to each party...the evidence subject to inspection and review [this refers to the evidence in the green section above]...and the parties must have at least 10 days to submit a written response, which the investigator will consider prior to completion of the investigative report.

106.45(b)(5)(vi)

Second 10-day review

Create an investigative report that fairly summarizes relevant evidence and, at least 10 days prior to a hearing...or other time of determination regarding responsibility, send to each party...the investigative report...for their review and written response.

106.45(b)(5)(vii)

For recipients that are elementary and secondary schools...after the recipient has sent the investigative report to the parties pursuant to paragraph (b)(5)(vii) of this section and before reaching a determination regarding responsibility.

106.45(b)(6)(ii)

Both review periods apply to all recipients

First 10-day review

© 2020, Association of Title IX Administrators.
Prior to the completion of the Investigation Report...

- Evidence directly related to allegations must:
  - Be sent to each party and advisor
  - Be in an electronic format or hard copy
  - Include evidence upon which the Recipient does not intend to rely
  - Include exculpatory and inculpatory evidence
  - Be made available at any hearing
- Best practice: Provide the draft investigation report at the same time.
- After sending the evidence, the investigator must:
  - Allow 10 days for written response
  - Consider response prior to completion of report
At least 10 Days Prior to Making a Determination Regarding Responsibility...

- The final Investigation Report summarizing relevant evidence must be sent:
  - To each party and advisor
  - In an electronic format or hard copy
  - For the parties’ review and written response
- Best Practice: Provide the investigative report to the TIXC and/or legal counsel to review for completeness prior to being shared with the parties
- For K-12 schools, with or without a hearing, this review is followed by, or in conjunction with, the exchange of relevant written questions and responses facilitated by a decision-maker.
GETTING PREPARED TO MAKE A DECISION
PREPARATION

• Should include:
  – Conflicts check
  – Recusal protocol
  – Review of applicable policies and procedures
  – Review of Investigation Report
  – Review of file of “directly related” evidence that was not relied upon by investigator
  – Exchange of questions, responses and follow-up responses between parties/witnesses
  – Preparation of any questions you have for parties/witnesses

• What About...
  – Can you talk to the Title IX Coordinator?
  – Can you talk to the investigators?
  – Should you meet with parties/advisors?
  – Should you talk to witnesses?
Decision-Maker Must Review:

- The Respondent’s written notice of allegations/investigation (NOIA) to understand all allegations.
- School/District policy alleged to have been violated.
  - Parse all the policy elements (what does it take to establish a policy violation?)
  - Identify the elements of each offense alleged.
  - Break down the constituent elements of each relevant policy.
- Review all the material (investigation report and investigation file) carefully and thoroughly – get a general overview of the complaint.
Decision-Maker Must Review:

- Review all the material a **second** time and note all areas of consistency of information.
  - You don’t need additional verification or questioning on these issues, if assuming the accuracy of consistent information (but beware of suspiciously consistent stories).
  - Also begin to identify what pieces of evidence address the various policy elements. (Note - this should be fairly outlined in the investigation report, but the decision-maker must conduct an independent assessment and will need to outline this in their written determination.)

- Read it a **third** time to identify inconsistencies in the information.
  - Here is where you will concentrate any questions you may have.
  - Continue to identify what pieces of evidence address the various policy elements.
• Sexual Harassment
  ▪ Quid Pro Quo Sexual Harassment
  ▪ Hostile Environment Sexual Harassment
  ▪ Sexual Assault
  ▪ Domestic Violence
  ▪ Dating Violence
  ▪ Stalking
• Retaliation
SEXUAL HARASSMENT

• Title IX regulations require each recipient to define sexual harassment as conduct on the basis of sex that satisfies one or more of the following:

  • **Quid Pro Quo**: An employee of the recipient conditioning the provision of an aid, benefit, or service of the recipient on an individual’s participation in unwelcome sexual conduct.

  • **Hostile Environment**: Unwelcome conduct determined by a reasonable person to be so severe, and pervasive, and objectively offensive (SPOO) that it effectively denies a person equal access to the recipient’s education program or activity

  • Education program or activity means employment, too!
HOSTILE ENVIRONMENT: “UNWELCOME”

• Unwelcomeness is subjective and determined by the Complainant (except when the Complainant is younger than the age of consent).
HOSTILE ENVIRONMENT: “REASONABLE PERSON”

• Severity, pervasiveness, and objective offensiveness are evaluated based on the totality of the circumstances from the perspective of a reasonable person in the same or similar circumstances (“in the shoes of the Complainant”), including the context in which the alleged incident occurred and any similar, previous patterns that may be evidenced.

• Denial of equal access is also evaluated based on the totality of the circumstances.
• Physical conduct is more likely to be severe.
• Accompanied by threats or violence.
• Consider the circumstances: e.g. the ability for Complainant to remove themselves from the harassment.
HOSTILE ENVIRONMENT: “PERVASIVE”

- Widespread.
- Openly practiced.
- Well-known among students or employees – reputation of a department, person, etc.
- Occurring in public spaces (more likely to be pervasive).
- Frequency of the conduct is often a variable in assessing pervasiveness. (look to intensity and duration)
- Unreasonable interference with school or job.
HOSTILE ENVIRONMENT: “OBJECTIVELY OFFENSIVE”

- Reasonable person standard in context.
- “I know it when I see it…”
- Age and relationships of Complainant and Respondents.
- Number of persons involved.
- Frequency.
- Severity.
- Physically threatening.
- Humiliation.
- Intimidation.
- Ridicule.
- Abusive.
There has been an increasing issue of conflating discomfort or being offended with the higher standard of sexual harassment. There is a high bar for meeting this definition.

Hostile environment analysis requires that you evaluate the “totality of the circumstances.”

- The frequency, nature, and severity of the conduct.
- Whether the conduct was physically threatening.
- Whether the conduct was humiliating.
- The identity of and relationship between the Respondent and the Complainant.
HOSTILE ENVIRONMENT: TOTALITY OF THE CIRCUMSTANCES

- Totality of the circumstances to consider:
  - The age and sex of the Respondent and the Complainant.
  - The size of the school, location of the incidents, and context in which they occurred.
  - The effect on the Complainant’s mental or emotional state.
  - Whether the conduct was directed at more than one person.
  - Whether the conduct unreasonably interfered with the Complainant’s educational or work performance.
  - Whether the statement was an utterance of an epithet which was offensive or offended by discourtesy or rudeness.
  - Whether the speech or conduct deserves the protections of academic freedom or the First Amendment protection.
SEXUAL ASSAULT

Any sexual act directed against another person, without the consent of the Complainant including instances where the Complainant is incapable of giving consent.

- **Forcible Rape** - Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the Complainant.

- **Forcible Sodomy** - Oral or anal sexual intercourse with another person, forcibly and/or against that person’s will or not forcibly or against the person’s will (non-consensually) in instances where the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
SEXUAL ASSAULT (CONTD.)

- **Sexual Assault With An Object** - To use an object or instrument to penetrate, however slightly, the genital or anal opening of the body of another person, forcibly and/or against that person’s will or not forcibly or against the person’s will (non-consensually) in instances where the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.

- **Forcible Fondling** - The touching of the private body parts of another person (buttocks, groin, breasts) for the purpose of sexual gratification, forcibly and/or against that person’s will (non-consensually) or not forcibly or against the person’s will in instances where the Complainant is incapable of giving consent because of age or because of temporary or permanent mental or physical incapacity.
• **Incest** - Nonforcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by [insert state] law.

• **Statutory Rape** - Nonforcible sexual intercourse with a person who is under the statutory age of consent of [insert age in your state].
CONSENT

• No mandated definition of consent under the 2020 regulations

• Consent can be defined per state law or best practices.
  – ATIXA Model Definitions found in 1P2P or The Playbook.
    ▪ ATIXA’s Consent Construct (discussed later)
Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the Complainant. The existence of such a relationship shall be determined based on the Complainant’s statement and with consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship. For the purposes of this definition—

– Dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse.
– Dating violence does not include acts covered under the definition of domestic violence.
DOMESTIC VIOLENCE

• A felony or misdemeanor crime of violence committed—
  – By a current or former spouse or intimate partner of the Complainant;
  – By a person with whom the Complainant shares a child in common;
  – By a person who is cohabitating with, or has cohabitated with, the Complainant as a spouse or intimate partner;
  – By a person similarly situated to a spouse of the Complainant under the domestic or family violence laws [insert your state here];
  – By any other person against an adult or youth Complainant who is protected from that person’s acts under the domestic or family violence laws of [insert your state here].

• To categorize an incident as Domestic Violence, the relationship between the Respondent and the Complainant must be more than just two people living together as roommates. The people cohabitating must be current or former spouses or have an intimate relationship.
Engaging in a course of conduct directed at a specific person that would cause a reasonable person to—

- Fear for the person’s safety or the safety of others; or
- Suffer substantial emotional distress.

For the purposes of this definition -

- **Course of conduct** means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person’s property.

- Reasonable person means a reasonable person under similar circumstances and with similar identities to the Complainant.

- Substantial emotional distress means significant mental suffering or anguish that may but does not necessarily require medical or other professional treatment or counseling.

Please don’t interpret this to violate anyone’s First Amendment rights.
• No institution or other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under Title IX.

• The exercise of rights protected under the First Amendment does not constitute retaliation.

• Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a grievance proceeding does not constitute retaliation if it is based on more than evidence that a Respondent violated the sexual harassment policy.
Title IX regulations prohibit recipients from intimidating, coercing, or retaliating against individuals because they engage in activities protected by Title IX.

- Protected activity under Title IX:
  - Reporting sex discrimination, including sexual harassment and assault.
  - Filing a discrimination complaint.
  - Assisting someone in reporting discrimination or filing a complaint.
  - Participating in, or refusing to participate in, an investigation or proceeding of discrimination, for example as a witness.
  - Protesting any form of sex discrimination (e.g. lack of equity in athletics).
• Establishing retaliation, unlike establishing sexual harassment, requires proving motive – the intent to retaliate.

• Someone’s intention is rarely displayed openly. Therefore, the policy framework is about whether a retaliatory motive can be inferred from the evidence.

• Gathering details of what occurred is critical.
The following elements establish an *inference of retaliation*:

– Did the individual engage in protected activity?
  - Usually straightforward,
  - Unless there is a question of reasonableness of belief or manner.
– Was the individual subsequently subjected to adverse action?
– Do the circumstances suggest a connection between the protected activity and adverse action?
  - Did individual accused of retaliation know about activity?
  - How soon after the protected activity did the adverse action occur?
– If these three elements are not shown, there is not a finding of retaliation.
• Common definition of **adverse action**:
  – Significantly disadvantages or restricts the individual as to their status as students or employees, or their ability to gain the benefits or opportunities of the program; or
  – Precluded from their discrimination claims; or
  – Reasonably acted or could act as a deterrent to further protected activity.
  – The U.S. Supreme Court and the federal courts have defined adverse action **very broadly**.
ATIXA
CONSENT
CONSTRUCT

- Force
- Incapacity
- Consent
CONSENT IS...

• Informed, knowing, and voluntary (freely given).
• Active (not passive).
  – Lack of protest or resistance ≠ consent
• Affirmative action through clear words or actions.
• Creates mutually understandable permission regarding the conditions of sexual or intimate activity.
• Cannot be obtained by use of:
  – Physical force, compelling threats, intimidating behavior, or coercion.
• Cannot be given by someone known to be — or who should be known to be — mentally or physically incapacitated.
• Must be present through the entire incident.
• Can be withdrawn at any time (must be clearly communicated).
1. Was force used by the Respondent to obtain sexual or intimate access?

2. Was the Complainant incapacitated?
   a. Did the Respondent know the Complainant was incapacitated, or
   b. Should the Respondent have known that the Complainant was incapacitated (e.g., by alcohol, other drugs, sleep, etc.)?

3. What clear words or actions by the Complainant gave the Respondent permission for each specific sexual or intimate act that took place as it took place?
• Was force used by the Respondent to obtain sexual or intimate access?
• Because consent must be voluntary (an act of free will), consent cannot be obtained through use of force.
• Consider the impact of power dynamics
• Types of force to consider:
  – **Physical violence**: hitting, restraint, pushing, kicking, etc.
  – **Threats**: anything that gets others to do something they wouldn’t ordinarily have done absent the threat
  – **Intimidation**: an implied threat that menaces and/or causes reasonable fear
  – **Coercion**: the application of an unreasonable amount of pressure for sexual access.
    ▪ Consider: frequency, intensity, duration, isolation
• First, was the Complainant incapacitated at the time of sexual activity?
  – Could they make rational, reasonable decisions?
  – Could they appreciate the situation and address it consciously such that any consent was informed?
    ▪ Knowing who, what, when, where, why and how.

• Second, did the Respondent know of the incapacity (fact)?
  – Or, should the Respondent have known from all the circumstances (reasonable person)?
What was the form of incapacity?

- Alcohol or other drugs
  - Incapacity ≠ Impaired, drunk, intoxicated, or under the influence
  - Incapacity = an extreme form of intoxication
    - Administered voluntarily or without Complainant’s knowledge
    - “Rape drugs”
- Mental/cognitive impairment
- Injury
- Asleep or unconscious
- Age (under the legal age of consent)
Evidence of incapacity will come from context clues, such as:

- A witness may know how much the Complainant consumed
- Slurred speech
- Bloodshot eyes
- The smell of alcohol on the breath
- Shaky equilibrium
- Vomiting
- Unconsciousness (including blackout)
- Outrageous or unusual behavior.*

*Individualized assessment based on actually knowing the person.
EVIDENCE OF INCAPACITY

• Incapacity is dependent on many or all of the following factors:
  – Body weight, height, and size
  – Tolerance for alcohol and other drugs
  – Amount, pace, and type of alcohol or other drugs consumed
  – Amount of food intake prior to consumption
  – Voluntariness of consumption
  – Genetics
KNOWLEDGE OF INCAPACITY

• The evidence might also include contextual information to analyze any behaviors by the Complainant that seem “out of the norm” as part of a determination of incapacity:
  – Did the Respondent know the Complainant previously?
  – If so, was the Complainant acting very differently from previous similar situations?
  – Review what the Respondent observed the Complainant consuming (via the report’s timeline).
  – Determine if Respondent provided any of the alcohol to the Complainant.
  – Consider other relevant behavioral cues.

• What if the Respondent experiences memory loss, too?
  – Failing to remember the details of reported misconduct does not negate potential responsibility.

© 2020, Association of Title IX Administrators.
• If the Complainant was not incapacitated, move on to the Consent analysis (Question #3).

• If the Complainant was incapacitated, but:
  – The Respondent did not know it, AND
  – The Respondent could not have reasonably known it, then the policy was not violated for this reason. Move on to the Consent analysis.

• If the Complainant was incapacitated, and:
  – The Respondent knew it or caused it, then there is evidence to determine that a policy violation occurred. OR
  – The Respondent could or should have known it, then there is evidence to determine that a policy violation occurred.
CONSENT

• What clear *words or actions* by the Complainant gave the Respondent permission for each sexual act as it took place?

• If there *are* clear words or actions (by the standard of proof), there is no sexual assault.

• If there *are no* words or actions, or they are not clear (by the standard of proof), then there is no consent, and the finding is that a sexual assault occurred.

• The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity, or gender expression.
CONSENT: RULES TO REMEMBER

• No means no, but nothing also means no. Silence and passivity do not equal consent.
• To be valid, consent must be given immediately prior to or contemporaneously with the sexual or intimate activity.
• Consent can be withdrawn at any time, as long as that withdrawal is clearly communicated – verbally or non-verbally – by the person withdrawing it.
QUESTIONING BY DECISION-MAKER
• Mandated **live hearing not required** for K-12 (unless already required by state law, district policy, board policy, etc.).

• **Live cross-examination not required** for K-12 (unless already required).
  – Questioning may be done indirectly through the decision-maker.

• Parties must be given opportunity to submit written questions for the other party and all witnesses, provide each party with the answers, and allowed additional, limited follow-up questions from each party.
  – Including questions challenging credibility.
QUESTIONING BY DECISION-MAKER (AND OPTIONAL HEARING)

- Decision-maker should determine relevancy of written questions and explain rationale for excluding/re-wording any questions submitted by the parties.
- Decision-makers may ask a party to explain why they think a question is relevant or will lead to a relevant answer.
- If the party submits a written question that is potentially answered in the investigation report, that question should typically be permitted, if relevant.
  - The decision-maker may deny the question as “irrelevant because it has already been answered,” or may ask the party why posing the question again is expected to lead to additional relevant evidence.
QUESTIONING BY DECISION-MAKER (AND OPTIONAL HEARING)

• The decision-maker may want to ask the parties and/or witnesses questions after reviewing the investigation report and documentation provided from the investigation.

• This can be done through the exchange of written questions and responses or in person/remotely
  – Your school policy should outline how this process will be facilitated

• The decision-maker should first review the investigation report and documentation provided from the investigation to see if their questions are answered.
IF YOU STILL HAVE A QUESTION, ASK YOURSELF

- Is the answer already in the report or documentation I have been provided?
  - If not, ask the Investigator why not.
  - If you still need to know this information, ask it.

- What do I need to know?

- Who is the best person to get this information from?
  - Usually it will be the Investigator, first, and then the original source, if available. It may be good to ask the Investigator if they asked it already and what answer they received previously.

- Why do I need to know it?
  - If it is not going to help you decide whether a policy was violated or not and you can explain how, then it is not a good question (though you may not know this until you hear the answer).

- What is the best way to ask the question?
GOALS OF QUESTIONING

- The goal of questioning is to ensure that as a decision-maker, you understand information and evidence contained in the report:
  - Relevant evidence about what happened during the incident
  - Any related events
  - Any corroborating information
- Use your questions to elicit details, eliminate vagueness, fill in the gaps where information seems to be missing, resolve conflicting information as it relates to the policy elements.
- Your goal is not:
  - Satisfying your curiosity
  - Chasing the rabbit into Wonderland
- Do not expect the “Gotcha” moment. That is not your role. You are not prosecutorial.
ASKING GOOD QUESTIONS

• Use open-ended questions (Who..., what..., how...)
• Use close-ended questions to drill down on details. (Did you..., were you...)
• Don’t ask Compound Questions.
  – “I have two questions: First,...; Second,...”
• Don’t ask Multiple Choice Questions.
  – Were you a or b?
• Avoid suggesting an answer in your question.
• Frame questions neutrally.
• Don’t ask blaming or judgmental questions.
• Minimize the re-traumatization potential for all parties.
UNDERSTANDING THE EVIDENCE

- Understanding Evidence
- Relevance
- Evidence Issues Under the 2020 Title IX Regulations
- 3 Buckets of Evidence
- Relevance Exercise
- Credibility Determinations
• The formal federal rules of evidence do not apply in Title IX hearings, but rules crafted by OCR for Title IX cases do.
• If relevant and credible, it should be considered.
  – Evidence is any kind of information presented with the intent to prove what took place.
  – Certain types of evidence may be relevant to the credibility of the witness, but not to the alleged policy violation directly.
• No restrictions on discussing case or gathering evidence
• Equal opportunity to:
  - Present witnesses, including fact and expert witnesses
  - Present evidence, including inculpatory and exculpatory evidence
  - Inspect all evidence, including evidence not used to support determination
• No limits on types/amount of evidence that may be offered, except must be relevant and respect “rape shield” and privilege provisions
ASK YOURSELF

Is it **relevant**?

Is it **reliable**?
(Is it credible?)

Will we **rely** upon it as evidence supporting a rationale/the written determination?
Evidence is generally considered *relevant* if it has value in proving or disproving a fact at issue.
- Regarding alleged policy violation and/or
- Regarding a party or witness’s credibility.

The investigator will have made initial relevance “decisions” by including evidence in the investigation report...

But relevance is ultimately up to the decision-maker, who is not bound by the investigator’s judgment.

All relevant and reasonably available evidence must be objectively evaluated and considered – inculpatory and exculpatory.
• If the investigator indicates an opinion on credibility, outcome, whether policy was violated, how evidence should be weighed, etc., that opinion or recommendation is not binding on the decision-maker.

• The decision-maker may consider it, but has to be objective and independent, and is free to accept or reject any recommendation of the investigator (or ask them not to make one)
  – Should you ask for it or ask the investigator to clarify their recommendations?
Decision-maker may consider and assign weight to different types of evidence, when relevant and credible:

- Documentary evidence (e.g. supportive writings or documents).
- Electronic evidence (e.g. photos, text messages, and videos).
- Real evidence (i.e. physical objects).
- Direct or testimonial evidence (e.g. personal observation or experience).
- Circumstantial evidence (i.e. not eyewitness, but compelling).
- Hearsay evidence (e.g. statement made outside the hearing but presented as important information).
- Character evidence (subject to a relevance determination, but often not probative of the underlying allegation).

Decision-makers should typically disregard:

- Impact statements (typically only relevant in sanctioning).
SPECIFIC EVIDENCE ISSUES UNDER THE TITLE IX REGULATIONS

• Evidence of the Complainant’s prior sexual behavior or predisposition is explicitly and categorically not relevant except for two limited exceptions:
  – Offered to prove that someone other than the Respondent committed the conduct alleged, or
  – Concerns specific incidents of the Complainant’s sexual behavior with respect to the Respondent and is offered to prove consent

• Even if admitted/introduced by the Complainant.

• Does not apply to Respondent’s prior sexual behavior or predisposition.
Additional permissions required for:

• Records made or maintained by a:
  – Physician
  – Psychiatrist
  – Psychologist

• Questions or evidence that seek disclosure of information protected under a legally recognized privilege must not be asked without permission.
  – This is complex in practice because you won’t know to ask for permission unless you ask about the records first.
THREE BUCKETS OF EVIDENCE

1. All evidence that is relevant to the complaint
   - Parties may make case to Investigators/Decision-makers that this evidence should be shifted to Bucket 2 or 3.
   - Once finalized, this evidence should be provided to the Parties/Advisors/Decision-makers within the investigation report via secure technology.
   - Evidence is relevant when it tends to prove or disprove an issue in the complaint.

2. Only evidence that is directly related to the complaint (but is determined by the Investigator not to be relevant)
   - Parties may make case to Investigators/Decision-makers that this evidence should be shifted to Bucket 1 or 3.
   - Once finalized, this evidence should be provided to the Parties/Advisors/Chair in a separate file via secure technology.
   - Evidence is directly related when it is connected to the complaint, but is neither inculpatory (tending to prove a violation) nor exculpatory (tending to disprove a violation) and will not be relied upon by the investigation report.

3. All evidence that is neither relevant nor directly related to the complaint
   - Evidence should be maintained by the Investigator(s), but disregarded for purposes of the process. Parties/Advisors/Decision-makers don’t get to see or know about it.
• Parties may make case to Investigators/Decision-makers that this evidence should be shifted to Bucket 2 or 3.
• Once finalized, this evidence should be provided to the Parties/Advisors/Decision-makers within the investigation report via secure technology.
• Evidence is relevant when it tends to prove or disprove an issue in the complaint.
• Parties may make case to Investigators/Decision-makers that this evidence should be shifted to Bucket 1 or 3.

• Once finalized, this evidence should be provided to the Parties/Advisors/Decision-Maker in a separate file via secure technology.

• Evidence is directly related when it is connected to the complaint, but is neither inculpatory (tending to prove a violation) nor exculpatory (tending to disprove a violation) and will not be relied upon by the investigation report.
• Evidence should be maintained by the Investigator(s), but disregarded for purposes of the process. Parties/Advisors/Decision-makers don’t get to see or know about it.

All evidence that is neither relevant nor directly related to the complaint
• This evidence comes to the Decision-maker(s) at least 10 days prior to the decision-maker making a determination, in Bucket #1 (the investigation report) or in Bucket #2, the evidence file of what is considered directly-related.

• Although the investigator has initially sifted the evidence into these buckets, the Decision-maker must make an independent evaluation of the evidence to determine what will be relied upon to make your determination.
RELEVANCE EXERCISE
• Juanita Morales, a freshman member of the girls’ soccer team, made a Title IX report directly to the Vice Principal.

• On the morning of October 11, her teammate, who was checking her email in the computer lab, yelled for Juanita and the other teammates to come look at something on the computer.

• Juanita saw an email sent from the boy’s soccer team email address, boysssoccer@school.com, which said “Greetings new freshman, meet the girl next door.”

• The email included a photo of Juanita’s face photoshopped onto an image of a naked woman’s body with huge breasts.
Everyone in the room laughed and Juanita ran from the room crying, embarrassed that others would think it was her.

She immediately called Ivan, a member of the boys’ soccer team, who she believed sent the email.

Earlier in the year, Ivan asked her out several times, but she didn’t like him.

She found him really annoying, and while she knows it wasn’t nice, she called him a total loser in front of his friends.

She knows that he sent the email to hurt and embarrass her.
CASE STUDY: IVAN & JUANITA

• Ivan told the investigator that he believes Juanita is blowing the whole matter out of proportion.

• He admits to creating the photo for a class project. He reports:
  – “It was only meant to be a joke. I never put her name on it, so what’s the big deal? This is a work of art that I created for my class. I only showed my artwork, which by the way is protected by the First Amendment, to a few of my teammates. I know my rights very well, since my dad is a lawyer.”
  – The email account is for official team business.
  – The coaches and team captains have the password. The captains have shared the password with other seniors on the team.
The investigator also interviewed John Wang, assistant director of information technology.

John was able to confirm that someone using the computer lab computer sent the picture from the boy’s soccer team email account.

The picture was inserted into the email via a flash drive and he was unable to determine which student had logged in.

John received Ivan’s consent to inspect his laptop. The photo was on his hard drive, but was not sent out via email to anyone.

John said Ivan told him when he doesn’t have his laptop with him, it is typically inside his locker. Ivan also told John that he hasn’t given anyone else his laptop password.
EXERCISE: IS IT RELEVANT?

- Ivan was notified via the school’s NOIA letter that it is alleged that he violated the school’s sexual harassment policy, specifically the hostile environment provision.

- The definition of Sexual Harassment is:
  - unwelcome conduct,
  - determined by a reasonable person,
  - to be so severe, and
  - pervasive, and,
  - objectively offensive,
  - that it effectively denies a person equal access to the Recipient’s education program or activity.
You are the Decision-Maker. You must determine whether the following questions seek relevant information and/or whether the specific piece of evidence is relevant.

Let’s start with some of the evidence from the investigation report. Is it relevant that:

- Ivan is a member of the boy’s soccer team?
- Juanita is a member of the girl’s soccer team?
- There was “history” between Ivan and Juanita?
- Juanita called Ivan “a loser” earlier in the year in front of his friends?
- Ivan admitted to creating the image for his class?
- Ivan showed the image to a few teammates?
- The image was sent from a computer in the school’s computer lab?
- Ivan consented to letting John from IT inspect his laptop?
Consider whether the following pieces of evidence, if part of the fact-pattern originally provided from the investigation report, would be relevant:

– Juanita’s advisor’s daughter is in the same art class with Ivan and stated that she never had an assignment like that for class.

– Ivan’s friend, Alan, states that Juanita really is not bothered by the photo because he has observed occasions where Juanita flashed her breasts at Ivan a few times before. Juanita also told Ivan and Alan that she wanted breast implants.

– Ivan’s high school soccer coach has prepared a written character reference for Ivan, which states that he is an upstanding member of his high school team and community, a leader on the squad, and volunteered many times at the local YMCA youth program.
• Ivan stated that at the time that the email was sent, he was in his Algebra class and had an in-class test on that day.

• Juanita provided a screenshot of Ivan’s Twitter feed, which showed that he retweeted an announcement from his favorite band just two minutes prior to the precise time that the email was sent.

• Ivan’s advisor wants to ask Juanita about her academic progress during the first half of the school year. Ivan and his advisor believe that Juanita was in danger of failing her Chemistry class.
• The Complainant writes in the narrative of her written formal complaint that she has been experiencing significant mental health issues since being sexually assaulted, including PTSD (self-diagnosis). Respondent wants to ask the Complainant about this to argue that one of the reasons Complainant likely misperceived the incident as non-consensual is because she has a self-admitted history of serious mental health concerns.
  – RELEVANT? DIRECTLY RELATED? NEITHER? WHICH AND WHY?

• When reading the Complainant’s full interview transcript you see that the Complainant stated she did not consent to sex with the Respondent. She adds that one of the reasons why she did not consent and would not have consented is because prior to the incident, she was a virgin and had never had sex before.
  – RELEVANT? DIRECTLY RELATED? NEITHER? WHICH AND WHY?
CREDIBILITY DETERMINATIONS
WHAT IS CREDIBILITY?

- Accuracy and reliability of information.
- Ultimately the decision-maker’s role to determine the credibility of testimony and evidence, and hence its reliability.
- “Credible” is not synonymous with “truthful.”
- Memory errors, evasion, misleading may impact credibility.
- Primary factors: corroboration and consistency.
- Avoid too much focus on irrelevant inconsistencies.
- Source + content + plausibility.
- Credibility determinations may not be based on a person’s status as a Complainant, Respondent, or Witness.
CREDIBILITY

• Corroboration
  o Aligned testimony and/or physical evidence.

• Inherent plausibility
  o “Does this make sense?”
  o Be careful of bias influencing sense of “logical.”

• Motive to falsify
  o Do they have a reason to lie?

• Past record
  o Is there a history of similar behavior?

• Demeanor
  o Do they seem to be lying or telling the truth?

Enforcement Guidance on Vicarious Employer Liability for Unlawful Harassment by Supervisors
EEOC (1999)
Corroborating evidence

- Strongest indicator of credibility.
- Independent, objective authentication.
  - Party says they were in class, teacher confirms.
  - Party describes text conversation, provides screenshots.
- Corroboration of central vs. environmental facts.
- Not simply alignment with friendly witnesses.
- Can include contemporaneous witness accounts.
  - More “separate” the witness, greater the credibility boost.
- Outcry witnesses.
  - Does what party said then line up with what they say now?
- Pay attention to allegiances.
  - Friends, teammates, group membership.
  - This can work both directions (ex. honest teammate).
FACTORS TO CONSIDER FOR CREDIBILITY

Inherent plausibility

• Does what the party described make sense?
  – Consideration of environmental factors, trauma, relationships.
• Is it believable on its face?
• “Plausibility” is a function of “likeliness.”
  – Would a reasonable person in the same scenario do the same things? Why or why not?
  – Are there more likely alternatives based on the evidence?
• Is the party’s statement consistent with the evidence?
• Is their physical location or proximity reasonable?
  – Could they have heard what they said they heard?
  – Were there other impediments? (darkness, obstructions).
• How good is their memory?
  – Temporal proximity based on age of allegations.
  – “I think,” “I’m pretty sure,” “It would make sense”
Motive to falsify

- Does the party have a reason to lie?
- What’s at stake if the allegations are true?
  - Think academic or career implications.
  - Also personal or relationship consequences.
- What if the allegations are false?
  - Other pressures on the Complainant—failing grades, dramatic changes in social/personal life, other academic implications.
- Reliance on written document during testimony.
Past record

• Is there evidence or records of past misconduct?
• Are there determinations of responsibility for substantially similar misconduct?
• Check record for past allegations.
  – Even if found “not responsible,” may evidence pattern or proclivity.
• Written/verbal statements, pre-existing relationship.
Demeanor

• Is the party uncomfortable, uncooperative, resistant?
• Certain lines of questioning – agitated, argumentative.
• BE VERY CAREFUL
  – Humans are excellent at picking up non-verbal cues.
  – Human are terrible at spotting liars (roughly equivalent to polygraph).
• Look for indications of discomfort or resistance.
• Cue to dive deeper, discover source.
• Under the 2020 regs, investigators may or may not assess credibility with or without rendering conclusions or making findings related to credibility but will help to roadmap where decision-makers should look for information critical to a determination.

• Language in an investigation report may look like this:
  – “Decision-makers will want to carefully review Mary’s testimony as to whether the conduct was welcome, in light of the testimony of W1.”
  – “Decision-makers may wish to focus on reconciling the testimony offered by Joe and by Witness 2 with respect to who engaged in the conduct first.”
The decision-maker determines the greater weight of credibility on each key point in which credibility is at issue.

First, narrow to the contested facts, and then make a credibility analysis (by the standard of proof) for each.

Then, weight the overall credibility based on the sum total of each contested fact.

Credibility exists on a 100-point scale.

When you write the final determination letter, focus on what facts, opinion, and/or circumstantial evidence supports your conclusion. Offer a cogent and detailed rationale.
MAKING A DECISION

- Overview of the Process
- Standard of Evidence
- Foundations For Decision
- Sanctioning
- Written Determination
OVERVIEW OF THE PROCESS

- Anticipate that you will have to concretely articulate the rationale for and evidence supporting your conclusions.
- Parse the policy again; remind yourself of the elements that compose each and every allegation.
- Determine credibility of evidence and assess statements as factual, opinion-based, or circumstantial.
- Determine whether it is more likely than not that policy has been violated (or determine whether highly probable if C&C standard applies).
- Ensure an impartial decision that is free of substantive bias.

Withhold judgment until all the evidence has been considered.
EVIDENTIARY STANDARDS

No Evidence  Substantial Evidence  Preponderance of the Evidence/More Likely Than Not “50% Plus a Feather”  Clear and Convincing  Beyond a Reasonable Doubt
• Clear and convincing evidence: It is highly probably that policy was violated
  – Highly and substantially more likely to be true than untrue; the fact finder must be convinced that the contention is highly probable.
  – 65% 75% 85% – part of the problem with this standard is there is no real consensus on how to quantify it.

• Preponderance of the evidence: “More likely than not.”
  – 50.1% (50% plus a feather)
  – The “tipped scale”
Foundation for Decisions

- Decisions must be based only upon the facts, opinions, and circumstances provided in the investigation report, submitted in response to the written questions, or presented at a hearing with the decision-maker.

- Do not turn to any outside “evidence.”

- Assess each element in the policy (e.g. intent, sexual contact, consent, etc.), separate it out and determine if you have evidence that supports that a violation of that element is proven. Assess evidentiary weight. Measure with the following questions:
  - Is the question answered with fact(s)?
  - Is the question answered with opinion(s)?
  - Is the question answered with circumstantial evidence?
Findings, Impact Information, and Sanctions

• Separate the “Finding” from the “Sanction.”
  – Do not use impact-based rationales for findings (e.g.: intent; impact on the Complainant; impact on the Respondent, etc.)
  – Use impact-based rationales for sanctions only.

• Complainant and Respondent should share impact statement(s) only if and after the Respondent is found in violation.

• Understand that the question of whether someone violated the policy should be distinct from factors that aggravate or mitigate the severity of the violation.

• Be careful about not heightening the evidentiary standard for a finding because the sanctions may be more severe.
SANCTIONING IN SEXUAL HARASSMENT CASES

• Title IX and case law require:
  – Decision-maker should also decide sanction if credibility will influence the sanction
  – Not act unreasonably to bring an end to the discriminatory conduct (Stop)
  – Not act unreasonably to prevent the future reoccurrence of the discriminatory conduct (Prevent)
  – Restore the Complainant as best you can to their pre-deprivation status (Remedy)

• This may create a clash if the other sanctions only focus on educational and developmental aspects.

• Sanctions for serious sexual harassment should not be developmental as their primary purpose; they are intended to protect the Complainant and the school community.
COMMON STUDENT SANCTIONS

- Warning
- Detention
- Loss of privileges
- Counseling
- No contact
- Limited access to school activities
- Service hours
- Online education
- Alcohol and drug assessment, and counseling
- Discretionary sanctions
- Alternative Placement
- In-School-Suspension
- Out-of-School Suspension
- Expulsion
COMMON EMPLOYEE SANCTIONS

- Warning – verbal; written
- Probation
- Performance improvement/management process
- Training
- Counseling
- Loss of privileges
- Reduction in pay

- Loss of annual raise
- Discretionary sanctions
- Loss of supervisory or oversight responsibilities
- Paid or unpaid leave
- Suspension
- Termination
WRITTEN DETERMINATIONS

• Decision-maker issues a written determination regarding responsibility that includes the following:
  – Sections of the policy alleged to have been violated
  – A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, and hearings held (if applicable)
  – Statement of and rationale for the result as to each specific allegation
    ▪ Should include findings of fact supporting the determination and conclusions regarding the application of the policy to the facts
  – Sanctions imposed on Respondent
  – Any remedies provided to the Complainant designed to restore or preserve access to the education program or activity
  – Procedures and bases for any appeal
WRITTEN DETERMINATIONS: LOGISTICS

• The decision-maker should author the written determination.
  – May follow a template provided by the Title IX Coordinator.
• The written determination should be provided to the parties simultaneously.
• The determination becomes final either on the date that the recipient provides the parties with the written determination of the result of the appeal, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.
• FERPA cannot be construed to conflict with or prevent compliance with Title IX.
• Will this letter be reviewed by the Coordinator and/or legal counsel?
APPEALS

• Elements Under the 2020 Regulations
• Grounds for Appeal
• Process Flowchart
• Other ATIXA Recommendations
• The appeal decision-maker may be an individual or a panel.
  – Cannot be the Title IX Coordinator.
  – Cannot be the investigator or decision-maker in the original grievance process.
  – Recipient may run a pool of decision-makers who sometimes serve as policy or appeal decision-makers
  – Recipient may have dedicated appeal decision-makers.
• When an appeal is filed, must notify the other party and implement appeal procedures equally for all parties.
• Give the parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome.
• All parties may appeal from a determination regarding responsibility, and from a recipient’s dismissal of a formal complaint or any allegations therein, on the following bases:
  – Procedural irregularity that affected the outcome of the matter
  – New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; and
  – The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter
  – Other additional bases (sanction?), as long as applied to the parties, equitably.
APPEALS: THE PROCESS

- Request for Appeal
  - Accepted
    - Decision Stands
  - Denied
    - Decision Stands
  - Remand
    - New Investigation
    - New Hearing
    - Sanctions-Only Hearing
  - Sanction Adjusted
• One level of appeal.
• Short window to request an appeal.
  – May always grant an extension if necessary
• Document-based and recording review.
  – NOT de novo
  – In other words, not a “second-bite of the apple.”
• Deference to original hearing authority.
RECORD-KEEPING AND DOCUMENTATION
RECORD-KEEPING AND DOCUMENTATION

• Certain records must be created, retained, and available to the parties for at least **seven** years:
  – Sexual harassment investigation including any responsibility determination, any disciplinary sanctions imposed, and any remedies implemented
  – Any appeal and related result(s)
  – Any informal resolution implemented
  – Any supportive measures implemented
  – For each formal complaint, must document the basis for why the institutional response was not deliberately indifferent
• For each conclusion, must document the rationale for its determination
• Must document measures taken to preserve/restore access to education programs/activity
