What is the Civil Rights Data Collection?

The Civil Rights Data Collection (CRDC) is a biennial (i.e., every other school year) survey required by the U.S. Department of Education’s (Department) Office for Civil Rights (OCR) since 1968. Similar to the 2011–12 and 2013–14 CRDCs, the 2015–16 CRDC will collect data from a universe of all public local educational agencies (LEA) and schools, including long-term secure juvenile justice facilities, charter schools, alternative schools, and schools serving students with disabilities.

What is the purpose of the CRDC?

The CRDC collects data on leading civil rights indicators related to access and barriers to educational opportunity at the early childhood through grade 12 levels. The CRDC is also a longstanding and critical aspect of the overall enforcement and monitoring strategy used by OCR to ensure that recipients of the Department’s Federal financial assistance do not discriminate on the basis of race, color, national origin, sex, and disability. OCR relies on CRDC data it receives from public school districts as it investigates complaints alleging discrimination, determines whether the Federal civil rights laws it enforces have been violated, initiates proactive compliance reviews to focus on particularly acute or nationwide civil rights compliance problems, and provides policy guidance and technical assistance to educational institutions, parents, students, and others. In addition, the CRDC is a valuable resource for other Department offices and Federal agencies, policymakers and researchers, educators and school officials, parents and students, and the public who seek data on student equity and opportunity.

Under what authority does the Department conduct the CRDC?

Section 203(c)(1) of the 1979 Department of Education Organization Act conveys to the Assistant Secretary for Civil Rights the authority to “collect or coordinate the collection of data necessary to ensure compliance with civil rights laws within the jurisdiction of the Office for Civil Rights” [20 U.S.C. § 3413(c)(1)].

The civil rights laws enforced by OCR include: Title VI of the Civil Rights Act of 1964, which prohibits discrimination based on race, color, and national origin; Title IX of the Education Amendments of 1972, which prohibits discrimination based on sex; and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability. OCR’s implementing regulations for each of these statutes requires recipients of the Department’s federal financial assistance to submit to OCR “complete and accurate compliance reports at such times, and in such form and containing such information” as OCR “may determine to be necessary to enable [OCR] to ascertain whether the recipient has complied or is complying” with these laws and implementing regulations (34 CFR § 100.6(b), 34 CFR § 106.71, and 34 CFR § 104.61, located at http://www2.ed.gov/policy/rights/reg/ocr/index.html). In addition, pursuant to a delegation by the Attorney General of the United States, OCR shares in the enforcement of Title II of the Americans with Disabilities Act of 1990, which prohibits discrimination based on disability. Any data collection that OCR has determined to be necessary to ascertain or ensure compliance with these laws is mandatory.

OCR also works with Department offices to help them effectively carry out programs of Federal financial assistance that the Secretary of Education is responsible for administering. [See Sections 201, 202(g), 411(a), and 412 of the Department of Education Organization Act (20 U.S.C. §§ 3411, 3412(g), 3471(a), and 3472)]. OCR works with the Department’s Office of Elementary and Secondary Education, which is
responsible for administering the *Elementary and Secondary Education Act* of 1965 (*ESEA*). Section 9533 of the *ESEA* (20 U.S.C. § 7913) prohibits discrimination in the administration of the *ESEA* in violation of the Fifth or Fourteenth Amendments to the Constitution. In addition, Section 9534 of the *ESEA* (20 U.S.C. § 7914) prohibits discrimination in funded programs on the basis of race, color, religion, sex (except as otherwise permitted under Title IX), national origin, or disability. Thus, in addition to OCR's authority described above, the *ESEA* provides authority for the Department to mandate that LEAs respond to this data collection.

**What is different in the 2015–16 CRDC?**

The revised 2015–16 CRDC is nearly identical to the 2015–16 CRDC previously approved by OMB in February 2014 (OMB control #1870-0504). Minor changes were made to a few data elements in the 2015–16 CRDC to address comments received and questions raised by LEAs during the administration of the 2013–14 CRDC. OMB approved the revisions to the 2015–16 CRDC under the Paperwork Reduction Act on December 15, 2015, under Control Number 1870-0504. All the documentation submitted to OMB can be found at [this link](#).

OCR made three material changes to the 2015–16 CRDC. Specifically, OCR: (1) dropped the “students transferred to a regular school for disciplinary reasons” data element; (2) added new “child count for 2-year-olds served in LEA preschool” data element; and (3) expanded high school equivalency exam preparation program student participation and credentials data elements to include state-authorized high school equivalency exam preparation programs in addition to the General Educational Development (GED) test preparation programs.

**How does the 2015–16 CRDC differ from the 2013–14 CRDC?**

Almost all of the data elements that were previously collected by the 2013–14 CRDC will continue to be collected by the 2015–16 CRDC. A complete list of data elements included in the 2015–16 CRDC is found at the end of this FAQ in the appendix.

Which data for the CRDC are being collected through other data collections in the Department?

To reduce the burden on LEAs, beginning with the 2009–10 CRDC, the CRDC no longer collected disaggregated school data on the number of students served under the Individuals with Disabilities Education Act (IDEA) by disability category or educational environment. Instead, the CRDC uses the data that LEAs submit to the applicable state educational agency (SEA) for the purpose of reporting required data under IDEA. Likewise, high school completer data were no longer collected by the CRDC because the Department already collects those data from SEAs through the EDFacts collection. The 2015–16 CRDC will continue to leverage the data submitted through EDFacts to reduce the burden on LEAs.
